

the end of the last PHA fiscal year for which Operating Subsidy is paid with respect to the project.

(b) *Consolidated ACC.* Where a single ACC covers more than one project (Consolidated ACC), each annual Operating Subsidy payable under that ACC is a lump-sum amount, which is not divided into discrete amounts for the individual projects which are subject to the Consolidated ACC (see 24 CFR part 990). Accordingly, if a PHA, before submitting a request for Operating Subsidy pursuant to paragraph (a) of this section, determines that any project(s) under the Consolidated ACC will not require Operating Subsidy and should not be subject to the provisions of paragraph (a), of this section the PHA shall accompany its request with a resolution certifying that no Operating Subsidy shall be utilized with respect to such project(s) after the effective date of this rule and that all financial records and accounts shall be kept separately for such project(s). In such case, the removal of the project(s) from the request for Operating Subsidy shall be reflected by the exclusion of that number of unit months available for the project(s) when making the calculations, under 24 CFR part 990, for determination of the total amount of Operating Subsidy payable under the Consolidated ACC. In any event, no Operating Subsidy payable under a Consolidated ACC or otherwise shall be used to pay, directly or indirectly, any costs attributable to a project which is ineligible or otherwise excluded from Operating Subsidy under § 969.104. Even if no Operating Subsidy is received with respect to a project, the PHA remains obligated to maintain and operate the project in accordance with the provisions of the ACC related to project operation so long as those ACC provisions remain in effect.

§ 969.106 ACC extension in absence of current operating subsidy.

Where Operating Subsidy under an ACC is not approved for payment during a time period which results in extension of the term of the ACC provisions related to project operation, with respect to a particular project, pursuant to § 969.105, the PHA shall, at least one year before the anticipated ACC

Expiration Date for the project, notify HUD as to whether or not the PHA desires to maintain a basis for receiving Operating Subsidy with respect to the project after the anticipated ACC Expiration Date. This notification shall be submitted to the appropriate HUD Field Office in the form of a resolution of the PHA's Board of Commissioners. If the PHA does not desire to maintain a basis for Operating Subsidy payments with respect to the project after the anticipated ACC Expiration Date, the resolution shall certify that no Operating Subsidy shall be utilized with respect to the project after the effective date of this rule and that all financial records and accounts for such a project shall be kept separately. If the PHA does desire to maintain a basis for such Operating Subsidy payments, the resolution shall include the PHA's request for extension of the term of the ACC provisions related to project operation, for a period of not less than one nor more than 10 years. Upon HUD's receipt of the request, HUD and the PHA shall enter into an ACC amendment effecting the extension for the period requested by the PHA, unless HUD finds that continued operation of the project cannot be justified under the standards set forth in 24 CFR part 970 (HUD's regulation on demolition or disposition of public housing).

§ 969.107 HUD approval of demolition or disposition before ACC expiration.

This part is not intended to preclude or restrict the demolition or disposition of a project pursuant to HUD approval in accordance with 24 CFR part 970. Subject to the requirements of 24 CFR part 970, HUD may authorize a PHA to demolish or dispose of public housing at any time before the ACC Expiration Date.
